(54) IMAGE CONTENT DISPLAY METHOD, IMAGE CONTENT DISPLAY DEVICE, IMAGE CONTENT STORAGE MEDIUM, IMAGE DISPLAY METHOD AND IMAGE DISPLAY DEVICE

(57) Abstract:

PROBLEM TO BE SOLVED: To provide a method, a device and a medium for displaying a large image even on a small screen, regardless of size of the image by performing extraction into a display area in the size of the screen with respect to the source image, preparing a plurality of screen division images and successively displaying them on the screen together with additional information in image contents provided with the image larger than the display area of the screen of a display device.

SOLUTION: Contents images according to prescribed coordinates are generated from the source image provided with the display area larger than the screen of the display device; the respective generated content images are extracted in the display area in the size of the screen with a prescribed coordinate position as a center by a display instruction group, the additional information is added and a plurality of the screen division images are generated. The plurality of the generated screen division images are made to be successively displayed on the screen.
